## *Animal like animals and water*

Amazons Birds, dolphins and otters all share a similar they all are dying and going extinct.

I say that an organization should be created to stop deforestation. This is because the Amazon rainforest gives us clean water and is home to many cute animals.

For example the Hyacinth Macaw is a beautiful blue bird, but they are being traded illegally and there's only a few left in the forest. Giant Otters are also endangered and this is because of water pollution, Fishing in the area that is close to them, and capturing and habitat destruction, this is caused by humans that live close to them or want to trade them for money. As well for the pink dolphin it is close to exting in this is because people throw trash in the ocean/river and the dolphins will think it is food eat it and die. Meaning it is caused by water pollution.

Not only will it damage the animals inside of it, but also the water it makes and needs. When people cut down the trees there will be less clouds and if there's less clouds then there's less rain, less rain less plants/trees/water/snow meaning less water to live. And if we include deforestation there will be less oxygen to breathe and live. Trees also collect moisture and carbon dioxide, meaning there will be more carbon dioxide and that makes the earth hotter and drier and makes playas all over the world, meaning that we won't have food or water to keep us alive.

The only way for this to work is If we stop cutting down wood then there will be more Oxygen and water, bigger homes for the animals, more animals mining that they can repopulate and if we let them populate we will be able to see them in the wilderness. There will also be more colder because they observe carbon dioxide and water will be cleaner.

# Project Rubric

## Final Paper:

Paragraphs	Description	Points
<b>Introduction</b>	Contains a clear <u>thesis</u> and accurately describes the topic of the paper and why it is being written	3 2 1 0
<b>Argument 1</b>	Argument explains why it is important to protect the Amazon Rainforest, is clear, and uses 3 pieces of information from your sources to support your thesis	4 3 2 1 0
<b>Argument 2</b>	Argument explains why it is important to protect the Amazon Rainforest, is unique and different from argument 1, is clear, and uses 3 pieces of information from your sources to support your thesis	4 3 2 1 0
<b>Action Plan</b>	Paragraph contains an action plan that describes programs and actions you would take in order to better protect the rainforest and the animals that live there. Your action plan must be specific with details that would help the government put it into use.	4 3 2 1 0
<b>Conclusion</b>	Contains clear <u>thesis</u> and summarizes the main ideas of your paper	3 2 1 0
<b>Grammar/ format</b>	Paper uses proper grammar, format and spelling throughout	2 1 0

**Final Paper Points:** 20/ \_\_\_\_\_

## Materials:

<b>Peer Edit</b>	Completed peer edit assignment with thorough notes about your paper. Clear evidence that your partner has read and given you feedback to help improve your essay	3 2 1 0
<b>Research Table</b>	Completed research table with information about which 4 sources you used and what information you included in your essay.	2 1 0

**Materials Points:** 5/ \_\_\_\_\_

**Total Points:** 25/ \_\_\_\_\_
